

## Buddy Team List

The “Buddy List” created last year was implemented to not only improve communications amongst members in a smaller group setting, but to support member retention as well. I have revised the list slightly this year into what I call “Buddy Teams.” The goal this year is that members, grouped largely by their sponsors as much possible, could travel to meetings together, socialize, or support each other as the case sometime arises. I have **highlighted in bold** the first member of each team and trust that member will take the lead in providing encouragement to fellow team members to attend meetings and Lion Club events on a regular basis. It is this spirit of teamwork that keeps Lionism alive.
