The Chestertown Lions Club selected longtime members Lions Jim Lupis and Rogers Smith as recipients of the prestigious Knights of the Blind Pyramid Award for their many years of support and continuous contributions to all of the Lions club projects. Additionally, under the stewardship of both Rogers and Jim the Club's Scholarship Program has helped many high school graduates of Kent County with the cost of a college education. These educators are being recognized for their service.

These two Lions have been extensively involved over the years raising funds to support the LVRF. The Knights of the Blind Pyramid Award is one of the highest awards presented by the Lions Vision Research Foundation. The Lions Vision Research Foundation, Inc. works with Wilmer Eye Institute at Johns Hopkins Hospital in Baltimore to support both low vision research and rehabilitation services. One of the primary missions of Lions Clubs International (LCI) is help preserve vision and support those with vision losses.
