

## 2019 - 2020 Buddy Team Program

The "Buddy Program" started 2 years ago has improved communications and made strides in member retention as well. The goal this year is to continue the progress made and I encourage the "Team Leader" to stay in contact with their "Buddy Team Members" and let them know they are missed when they miss meetings and when they are not available for committee assignments. We are all volunteers and there are times when we have other commitments. This program is intended to promote travel to meetings and events together, member socialization, and just general member support.

I have updated the Buddy Teams from last year. The highlighted name is the Team Leader.
